

FoliageField in Collaboration with a China Manufacturer

We offer a wide range of products, including commercial and gym flooring, sports underlay, acoustic underlay, rubber interlocking tiles, and rubber mats. We also cater for customized designs to meet specific needs.

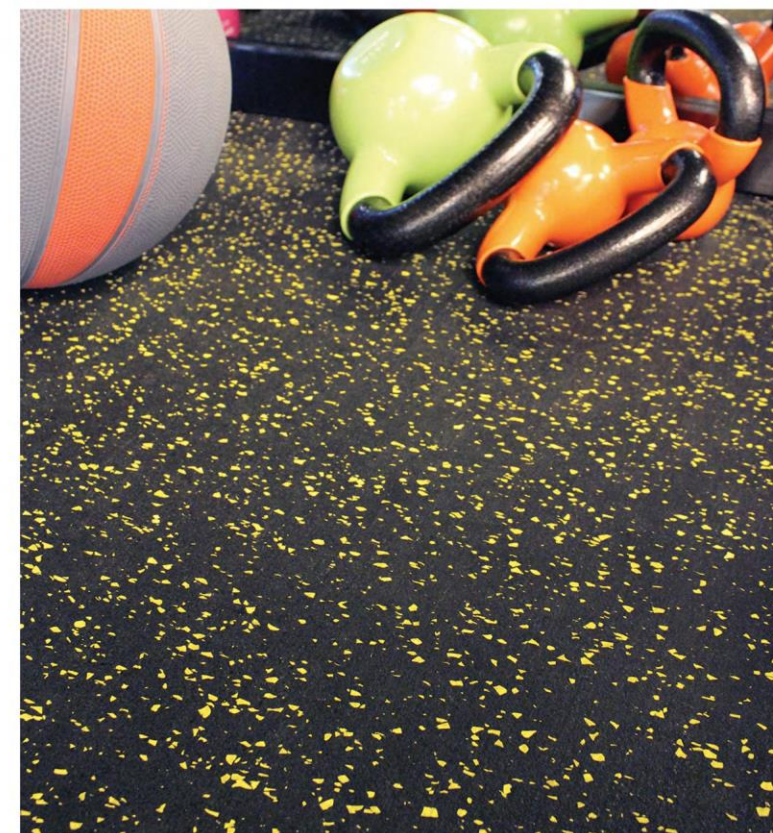

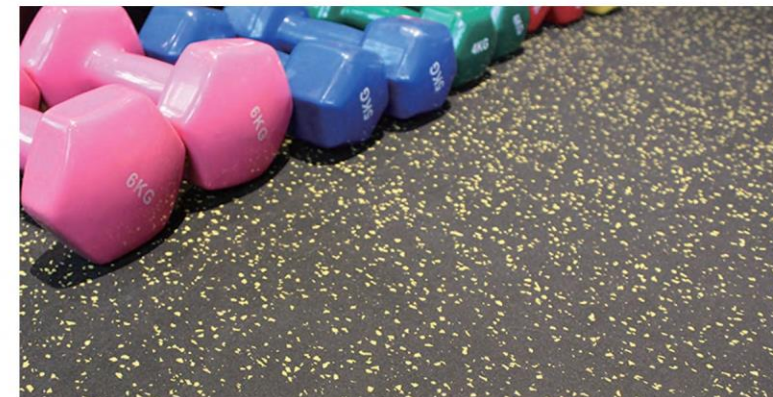

Rubber Roll

BS-2000/3000/5000/7000 series

BS-2000/3000/5000/7000 series rubber roll offers excellent feel and underfoot comfort while absorbing walking noise and physical shock of training impact.

Being made of recycled rubber and synthetic EPDM, and with wide variety of colors, our flooring is durable and resilient enough to be an ideal fit for the heavy use in gym rooms and other commercial applications.

Features & Benefits

- Comfort underfoot
- Sound and shock absorbent
- Multi-functional applications
- Wear resistant
- Anti-slip

Applications

- Gyms/clubs
- Walkways
- Shopping malls
- Offices
- Changing rooms
- Ice rink
- Kindergarten
- Exhibitions

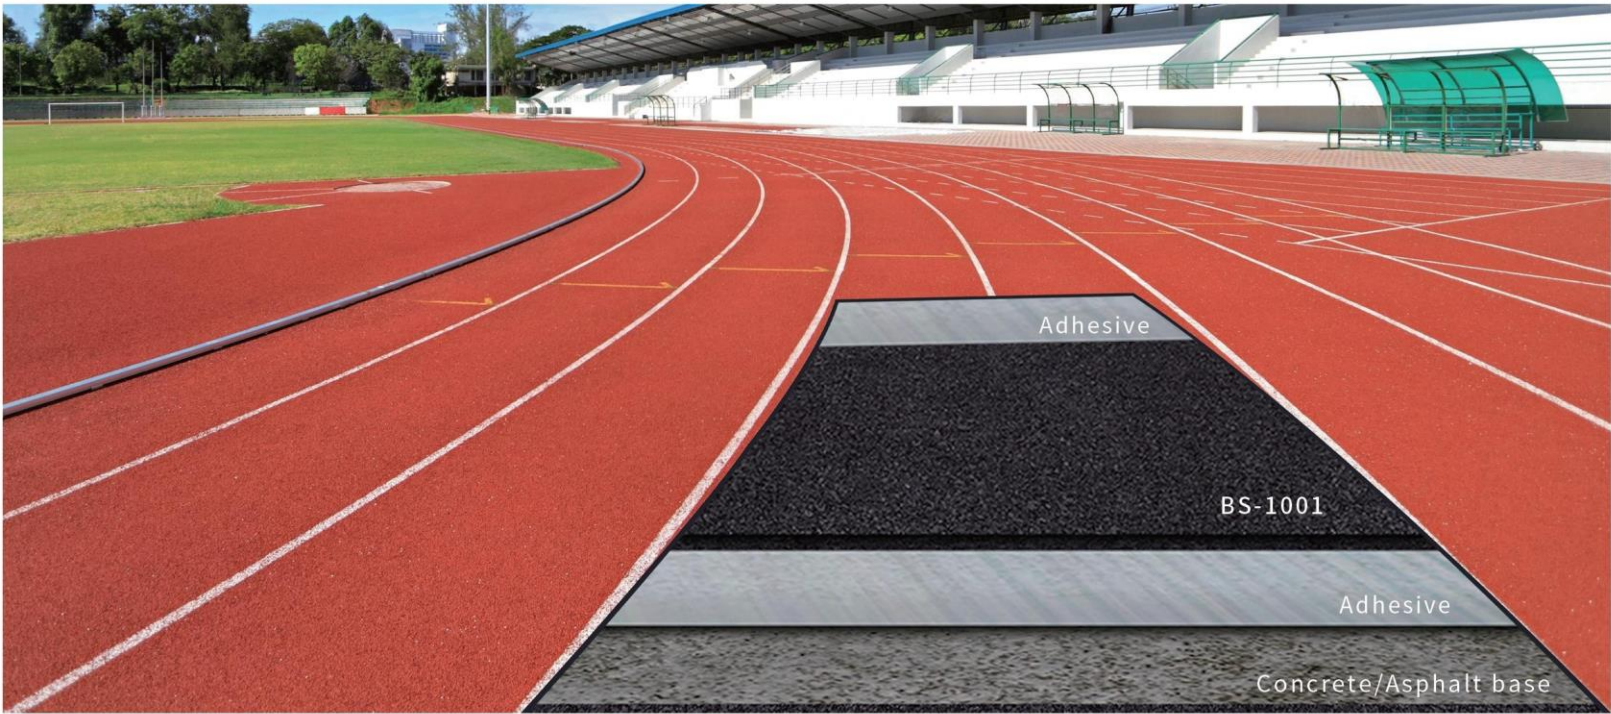

Specifications

Material: PU binder, Recycled rubber & Synthetic EPDM
 Color: Variety of colors
 Thickness: 4mm~12mm(± 0.3 mm)
 Roll Length: 10m/15m/20m(± 10 cm)
 Roll Width: 1m/1.25m(± 5 mm)

Sports Underlay

BS-1000 series has been specifically developed as a support underlay for multi-use sports courts, running tracks, and other artificial turf applications. The underlays are available in a variety of densities and thicknesses.

Technical data	BS-1001	BS-1004
Material	PU binder, recycled rubber	PU binder, recycled rubber
Roll length	10m/15m/20m (±10cm)	10m/15m/20m (±10cm)
Roll width	1m, 1.25m, 1.5m (±5mm)	1m, 1.25m, 1.5m (±5mm)
Thickness	3-15mm (±0.3mm)	6-20mm (±0.3mm)
Density	around 800kg/m ³	around 650kg/m ³
Features	Shock absorption	Shock absorption, Premium water permeability
Applications	Underlay for sports court & running track	Turfs shock pad
Physical performance	Tensile strength 0.618MPa	Tensile strength 0.35MPa
	Tear strength 4.7kN/m	Elongation 58%
	Shock absorption 21%	Water infiltration rate>24,000mm/h

Sports Surface

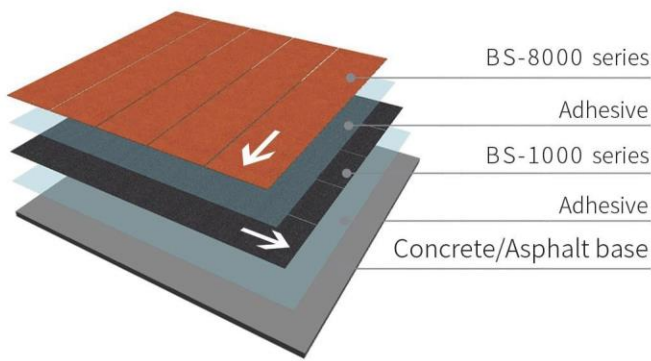

BS-8000 series

Designed for indoor & outdoor recreational surfaces, the BS-8000 series provides both high traction and a comfortable feel underfoot.

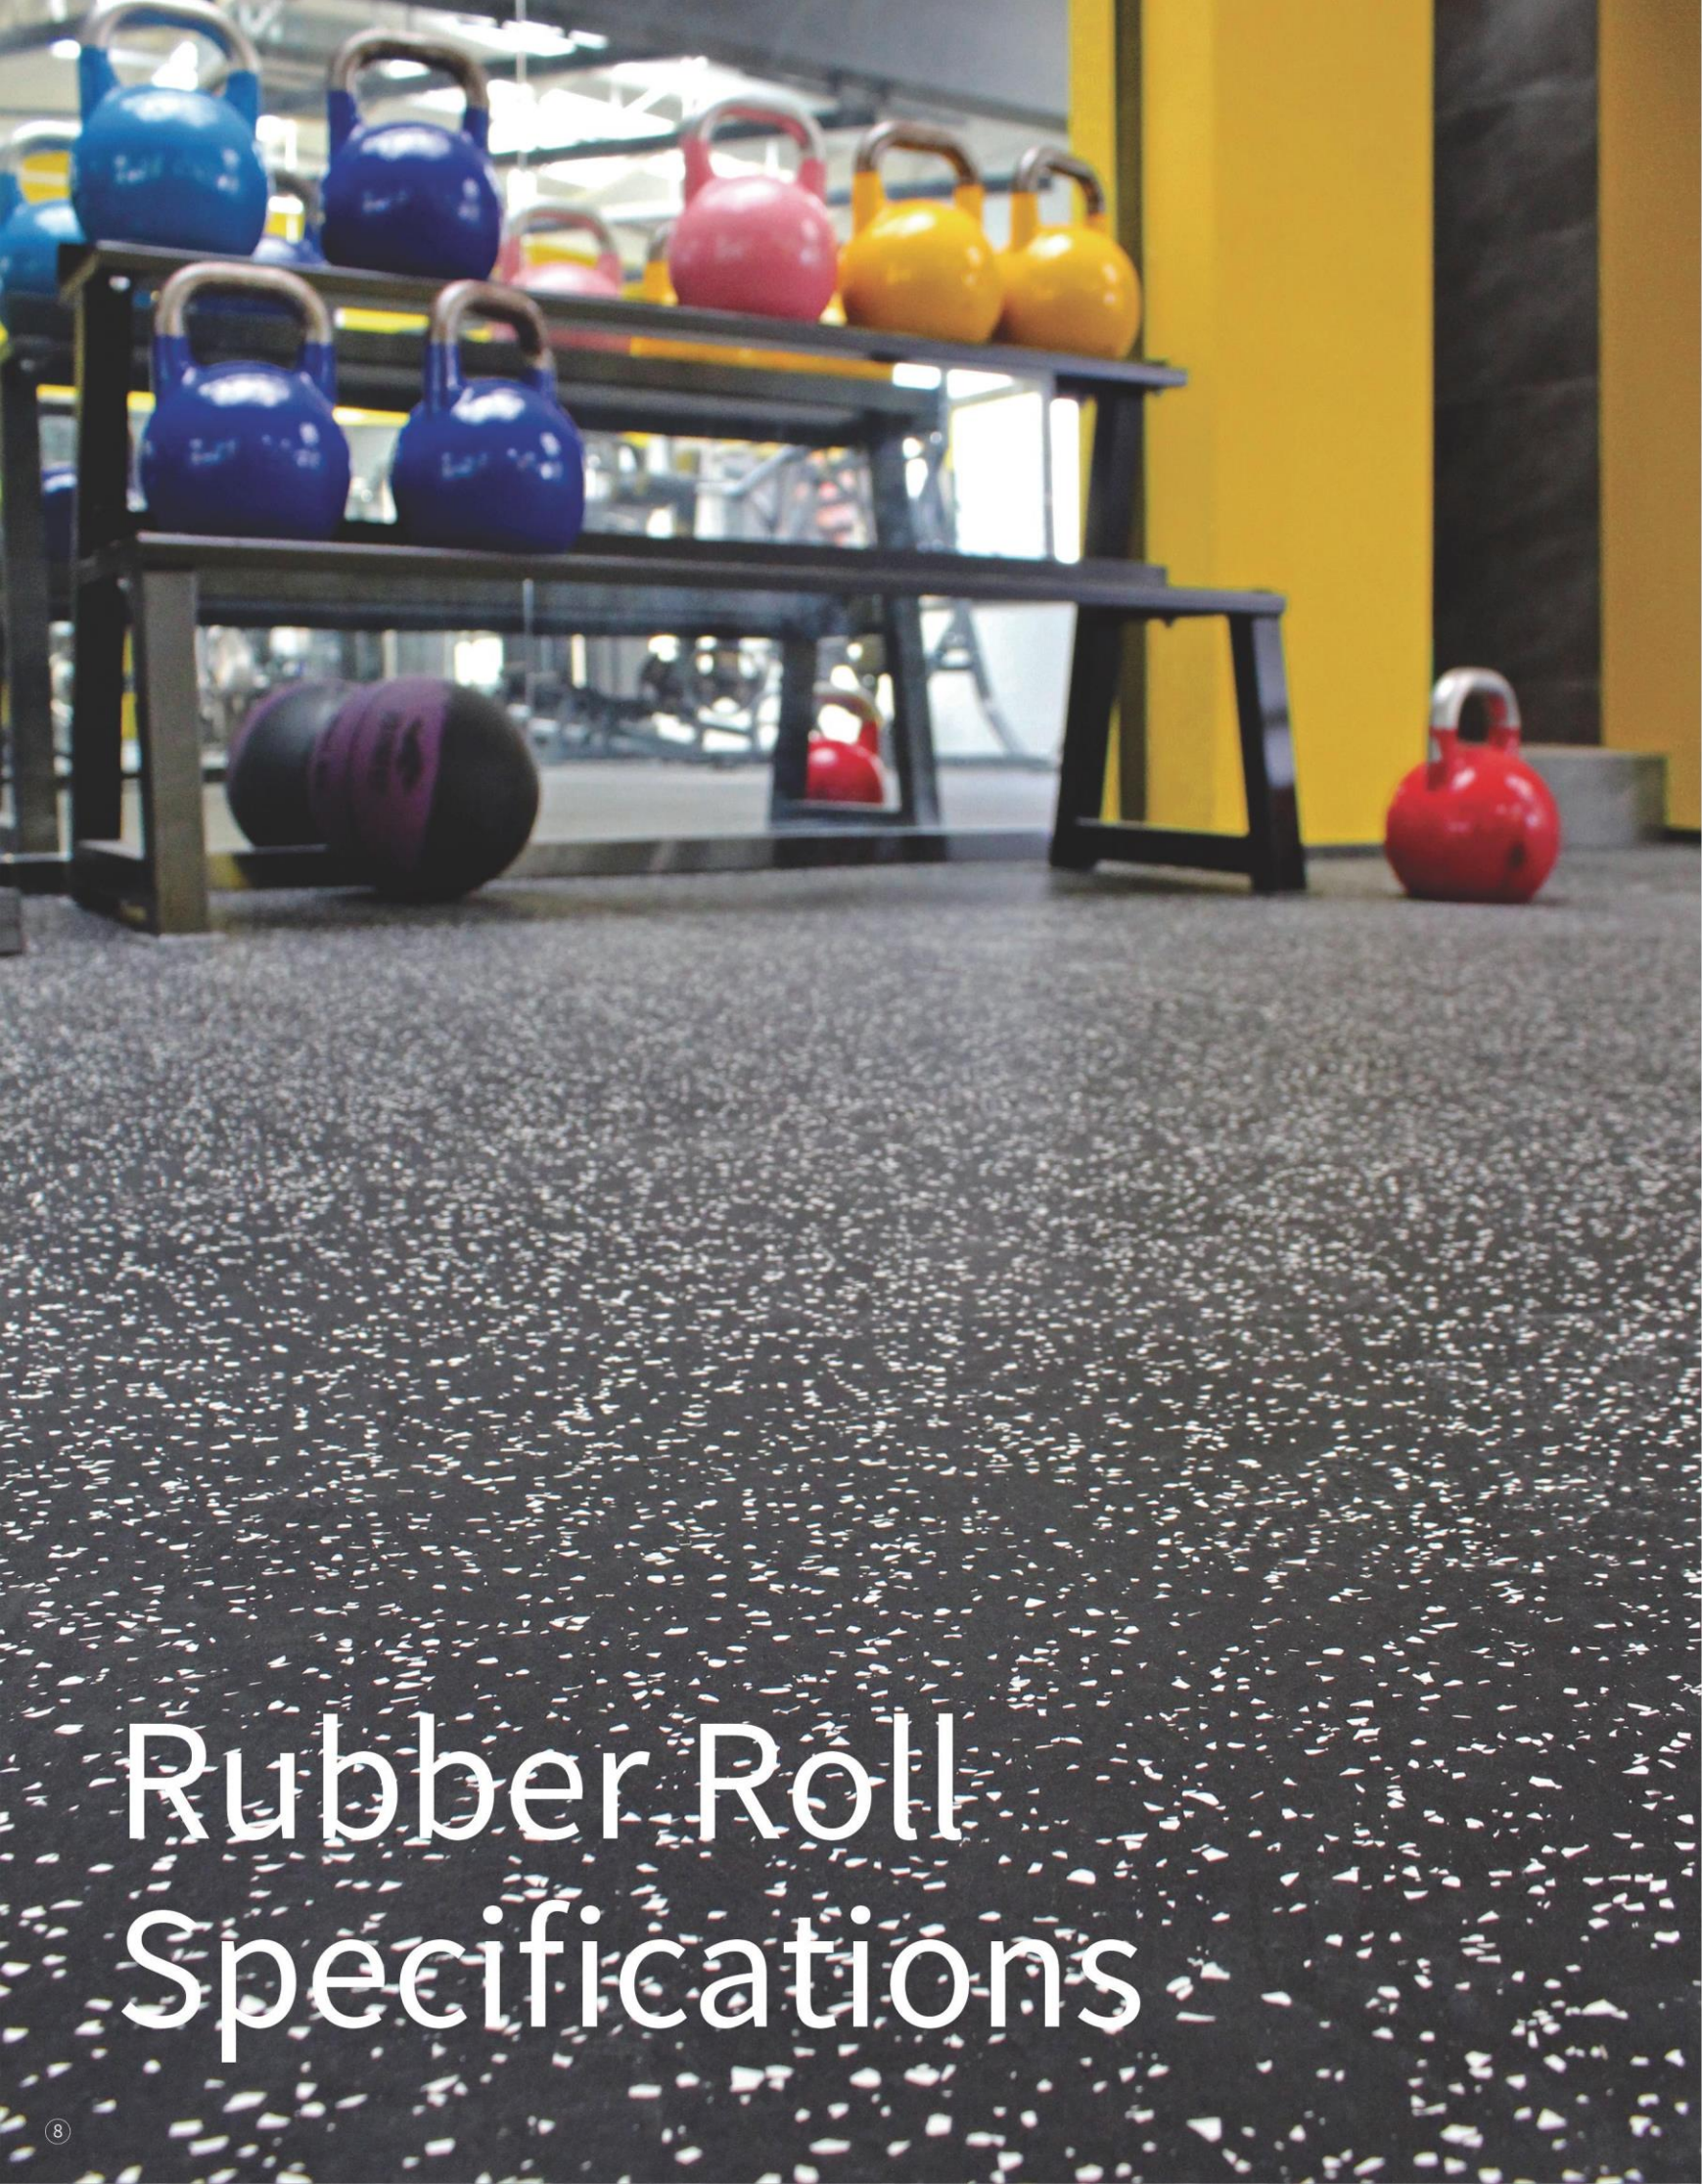

Facilities that have active ball sports, running tracks and training would benefit greatly from the BS-8000 series.

Laminated from a base layer cushion (BS-1000 series) with a dense layer of compressed EPDM rubber, the BS-8000 series is both easy to install and very cost effective.

Technical data

Material	PU binder, Synthetic EPDM
Roll length	10m/15m/20m(±10cm)
Roll width	1m(±5mm)
Thickness	3mm~10mm(±0.3mm)
Applications	Sports courts, Kindergarten, Playground
Features	Anti-slip, comfort underfoot, wear resistant
Hardness	71A
Static coefficient of friction	Wet: >1.00
Tensile strength	1.28 Mpa
Tear strength	13.0kN/m

Laminated Interlocking

BS-2000/3000/5000/7000 Series

Made with a 2-piece construction combining a durable, recycled rubber top surface with a softer, laminated foam backing for anti-fatigue benefits. BS Laminated Interlocking tiles combine enhanced shock absorption with much greater underfoot comfort.

The puzzle-cut system allows for flexibility and cost savings during installation and when additional tiles need to be replaced or expanded.

Rubber Tiles

BS-2000/3000/5000/7000 series

BS Rubber Tiles are designed to absorb the shock of people falling from heights, helping to reduce the risk of injury.

The material composition of recycled rubber and EPDM flecks make them elastic, anti-slip, durable, and perfect for both indoor and outdoor applications.

BS Rubber Tiles are your ideal choice for safer flooring for gyms, playgrounds and preschools. The specialized plastic connectors provide convenient, fast and easy installation.
